

# Use of data accessed via this service

The datasets available via this service are **The International Grand Global Ensemble (TIGGE) dataset**, which consist of ensemble forecasts from participating global numerical weather prediction centres.

Data from following centres are included and made available for online access:

- **BoM**: Bureau of Meteorology, Melbourne, Australia
- **CMA**: China Meteorological Administration, Beijing, China
- **CPTEC**: Centro de Previsao Tempo e Estudos Climaticos, Cachoeira Paulista, Brazil
- **DWD**: Deutscher Wetterdienst, Offenbach, Germany
- **ECCC**: Environment and Climate Change Canada, Toronto, Canada
- **ECMWF**: European Centre for Medium-Range Weather Forecasts, Reading, Europe
- **IMD**: India Meteorological Department, New Delhi, India
- **JMA**: Japan Meteorological Agency, Tokyo, Japan
- **KMA**: Korea Meteorological Administration, Seoul, Korea
- **MF**: Météo-France, Toulouse, France
- **NCEP**: National Centres for Environmental Prediction, Washington, DC, USA
- **NCMRWF**: National Centre for Medium Range Weather Forecasting, Noida, India
- **UKMO**: United Kingdom's Met Office, Exeter, United Kingdom

New data are added to the archive from contributors on an ongoing basis.

Different TIGGE data available via the ECMWF Data Store (ECDS) are provided under two types of a licence depending on the model and the respective data provider, namely they are provided either under the Creative Commons Attribution 4.0 International (**CC BY 4.0**) or under the Creative Commons Attribution-NonCommercial 4.0 International (**CC BY-NC 4.0**).

Registration will provide you with access to the TIGGE data with a delay of **48 hours** after the initial time of the forecasts.

Access, retrieval and/or use of TIGGE data is regulated by the conditions below. By accepting these terms of use and licences, the person accessing, retrieving and/or using of the TIGGE data agrees to be bound to the below conditions. If this person is agreeing to the below conditions on behalf of an organisation, company or other legal entity, such person represents that they have the legal authority to bind that organisation, company or legal entity to the below conditions. To the same effect, the use of one account to access, retrieve or use TIGGE data by a number of users constitutes an agreement with the below conditions by each one of these different users and the below-listed obligations are applicable to each one of these different users.

## Licence of DWD, ECCC, ECMWF, KMA, NCEP, UKMO data from TIGGE dataset

DWD, ECCC, ECMWF, KMA, NCEP, UKMO data from TIGGE dataset are published under the **Creative Commons Attribution 4.0 International (CC BY 4.0)**. To view a copy of this licence, visit: <https://creativecommons.org/licenses/by/4.0/legalcode>

You are free to:

- **Share** — copy and redistribute the material in any medium or format for any purpose, even commercially

- **Adapt** — remix, transform, and build upon the material.

Under the following terms:

- **Attribution** — You must give appropriate credit (attribution) to the respective data provider as outlined in the citation and attribution section for the TIGGE dataset in the ECMWF Data Store, provide a link to the licence, and indicate if changes were made.
- **Citation** — Articles, papers, or written scientific works of any form, based in whole or in part on TIGGE data, will contain an acknowledgement of TIGGE. Please refer to the citation and attribution section for the TIGGE dataset in the ECMWF Data Store.
- **No endorsement** — The credit (attribution) and the citation shall in no way suggest that ECMWF and/or the respective data provider/licensor endorses you or your use.
- **No additional restrictions** — You may not apply legal terms or technological measures that legally restrict others from doing anything the licence permits.
- **Disclaimer of Warranties and Limitation of Liability** — Although every care has been taken in preparing and testing the data, ECMWF and the respective data provider/licensor cannot guarantee that the data are correct in all circumstances; neither does ECMWF nor the respective data provider/licensor accept any liability whatsoever for any error or omission in the data, or for any loss or damage arising from its use.

Access to ECMWF data from TIGGE dataset is governed **also** by the [ECMWF Terms of Use](#).

## Licence of BoM, CMA, CPTEC, IMD, JMA, MF, NCMRWF data from TIGGE dataset

BoM, CMA, CPTEC, IMD, JMA, MF, NCMRWF data from TIGGE dataset are published under the **Creative Commons Attribution-NonCommercial 4.0 International (CC BY-NC 4.0)**. To view a copy of this licence, visit: <https://creativecommons.org/licenses/by-nc/4.0/legalcode>
